ABSTRACT

The current study is entitled " Political, Educational , and Economic Life Features in the Fourth Hijri Century Through the Literature of the Judge Al-Mohsin Al-Tonokhi "

Moammed Al-Azemi

Mut'ah University,2013

This study consists of three sections. In the first section, the researcher addressed political life features through Al-Tonokhi's literature , which are represented by the caliphs beginning from Al-Moqtader Billah until Al-Qader , and the life of ministers (wazirs) and leaders . in the second section.

The researcher addressed educational and intellectual life features through Al-Tonokhi's literature , and the role of mosques and writers in the scientific movement , and also the scientists' names , and the book he mentioned in his works that highlighted the major factors that contributed to the prosperity of the scientific life that represented by caliphs, princes and ministers' divans , literary dialogues and arguments , and scientists' journeys for education and science. In the third section, the researcher addressed economic life features through Al-Tonokhi literature and this aspect included farming , trade, industry and handicrafts .

The study is concluded by the feature of civilization at that period such as dress, food, festivals and customs .
